

## You can be a Scientist and work in a Hospital!

- Do you want to work in the medical field?
- Are you interested in being part of diagnosing, preventing and treating disease?
- Are you detail oriented and focused and enjoy lab work?
- *Consider our 1-year post-baccalaureate program in Medical Laboratory Science*

### **Program overview**

MSU Denver's CCMLS program requires a baccalaureate degree with coursework in the sciences. Graduates are eligible to sit for national certification as a MLS (ASCP) through the American Society for Clinical Pathology – [ascp.org](http://ascp.org).

### **Coursework**

Classes begin each year in June and consist of classroom, laboratory and clinical hospital-based coursework in Microbiology, Hematology, Chemistry, Blood Banking, Immunology-Serology, Parasitology, Mycology, Virology, Molecular Diagnostics, Lab Management and Education.

### **For more information**
