

HEALTH PROFESSIONS

OCTOBER 2017

Happenings

WELCOME!

We've been quite busy as we've undergone some major new and exciting changes! You may have noticed that we changed our name from CASA to the Collaborative for Student Achievement. Also, WE MOVED! We are thrilled to announce our new Health Professions Advising space inside Stadium East! Come visit us and check out our new facility located in the east side of the new Colorado State Stadium on campus at 1415 Meridian Ave.

INTERESTED IN RESEARCH?

Sometimes the best way to get involved in research is to meet with your current course professors during office hours to discuss department research options for undergraduates. Additionally, the TILT Office for Undergraduate Research and Artistry (OURA) offers opportunities to get involved through the Undergraduate Research and Opportunities Program (UROP). More info at: tilt.colostate.edu/oura

DID YOU KNOW??

The Institute for Learning and Teaching (TILT) at CSU offers FREE tutoring for some of your most challenging courses in biology, chemistry, math and physics! Tutors are available from 5-10pm Sun-Thurs to help you with that tricky coursework! TILT also offers Study Groups for a few select classes, Academic Success Workshops, great learning resources, and more! Check it all out at: tilt.colostate.edu/learning

OCTOBER 27

State University of New York College Optometry Interest Meeting 11-12 in Stadium 261

CAMPUS RESOURCE

Get involved in CSU campus life and check out all the great resources offered for students through the Student Leadership, Involvement and Community Engagement (SLiCE) program! SLiCE is located in the Lory Student Center and works to provide great opportunities to plug in and get involved on campus and out in the community.

Being involved in SLiCE programs allows students to enrich their academic and social experience at CSU.

There are tons of great extracurricular opportunities to get involved from Cans Around the Oval to unique interest and volunteer clubs to the CSUnity service day to Alternative Spring Break service options and much more! SLiCE offers it all! You can even schedule an involvement advising session online through the SLiCE website! How great is that?!

Check out their website at:

lsc.colostate.edu/slice

MARK YOUR CALENDAR! GRAD SCHOOL FAIR OCTOBER 25

The CSU Career Center's annual Graduate School Fair will be October 25th from 11am to 4pm in the Lory Student Center Ballrooms C & D. Whether you're a fresh freshman or a seasoned senior this is a GREAT event to attend—and it's free! The Graduate School Fair offers students the opportunity to talk informally with representatives from diverse graduate and professional schools from around the country. You can ask representatives questions about the application process and ways to beef up your own personal application, what courses or experiences they recommend, financial aid opportunities and other questions about what their program offers and what makes it special. Remember, they are there in person to answer your questions so take advantage! Even if you're not so sure that grad school is for you, we strongly encourage you to check out the event to find out more about the vast array of programs offered all around the nation. Plus, it's a great opportunity to snag some free swag—there are almost always stickers involved! There are also informational spotlight sessions offered including topics such as how to choose a program and funding opportunities available for students. For more information and to see a list of schools and programs attending, log on to your Handshake account at colostate.joinhandshake.com and click on the events tab.

We hope to see you there!!

CONTACT

To schedule an appointment with a Health Professions Advisor, call the Collaborative for Student Achievement at 970-491-7095.
